READING AND WRITING REINFORCEMENT IN ENGLISH

Our speech pathologists work on pre-reading through play with the youngest children and reading comprehension skills and written expression with older children.

These activities are ideal for children with difficulties such as dyslexia and for those whom it is more difficult to acquire these skills during the school year and need reinforcement.

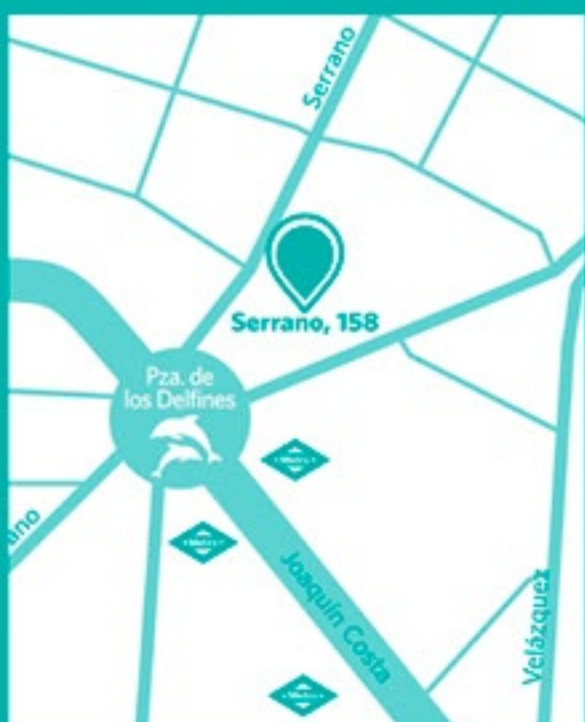

PLAYGROUP TO STIMULATE ORAL EXPRESSION IN ENGLISH

Fun in English with games directed by native professionals and adapted to the age of the child in which they will work on vocabulary, pronunciation and conversation skills.

EMOTIONAL INTELLIGENCE AND SOCIAL SKILLS IN ENGLISH

Understanding different types of emotions, learning to manage them in a controlled way and understanding the norms of peer relations is the goal of this activity directed by our child psychologists.
